

329250 to 330302—Continued**329253 to 330270—Continued**

- 329850.** Col. No. R-310. Elevation 2,580 m. Heads cylindrical, semi-compact, 20 cm. long. Glumes $\frac{1}{2}$ of seeds, straw colored, awned. Seeds medium small, light dark brown.
- 329851.** Col. No. R-316. Elevation 2,300 m. Heads cylindrical, 20 cm. long, semicompact, seeds clustered. Glumes reddish brown, $\frac{1}{2}$ of seed, awned. Seeds small, brown.
- 329852.** Col. No. R-317. Elevation 2,300 m. Heads lanceolate to ovate, semicompact, 25 cm. long. Glumes $\frac{1}{2}$ of seeds, mahogany, awned. Seeds small, shiny red.
- 329853.** Col. No. 2,100 m. Heads cylindrical, semicompact, 20 cm. long. Glumes straw colored, pubescent, $\frac{1}{2}$ of seed. Seeds medium large, chalky white.
- 329854.** Col. No. R-320. Heads cylindrical to lanceolate. Glumes $\frac{1}{2}$ of seed, black. Seeds chalky white with a brown subcoat.
- 329855.** Col. No. R-321. Heads cylindrical, semicompact, seeds clustered. Glumes $\frac{1}{2}$ of seed, transversely creased, straw colored with sienna base, awns short. Seeds medium large, orange yellow, pearly. Appears to be high quality seed.
- 329856.** Col. No. R-322. Heads cylindrical, semi-open, 30 cm. long. Glumes $\frac{1}{2}$ of seed, brown, awns short. Seeds light brown.
- 329857.** Col. No. R-324. Elevation 1,850 m. Head cylindrical to broadly lanceolate, semicompact, seeds clustered, 36 cm. long. Glumes less than $\frac{1}{2}$ of seed, straw colored, awns short. Seeds pearly lemon white. High quality seed.
- 329858.** Col. No. R-326. Elevation 1,500 m. Heads semiloose. Glumes $\frac{1}{2}$ of seeds, brown. Seeds medium large, chalky white with brown tinge.
- 329859.** Col. No. R-327. Elevation 1,500 m. Heads broadly lanceolate, semicompact, seed clustered, 46 cm. long. Glumes $\frac{1}{2}$ of seed, tan. Seed large, pearly tan. High quality.
- 329860.** Col. No. R-328. Elevation 1,500 m. Heads broadly lanceolate, semicompact, seeds clustered. Glumes $\frac{1}{2}$ of seeds, shiny black. Seeds medium large, chalky white.
- 329861.** Col. No. R-330. Elevation 2,100 m. Heads cylindrical, semi-compact, seeds clustered, 15 cm. long. Glumes $\frac{1}{2}$ of seed, mahogany, awned. Seed shiny, dark red. High elevation type.
- 329862.** Col. No. R-331. Elevation 2,300 m. Heads open, with weak extended rachis. Glumes $\frac{1}{2}$ of seed, mahogany, awned. Seeds small, reddish brown.
- 329863.** Col. No. R-336. Heads cylindrical, 15 cm. 1 ng. Glumes $\frac{3}{4}$ of seed, mahogany, awned. Seeds small, dark brown.

Market Chanco.

- 329864.** Col. No. R-337. Seeds red, amber and yellow.
- 329865.** Col. No. R-338. Seeds mixed, white, yellow and orange.
- 329866.** Col. No. R-339. Seeds mixed.
- 329867.** Col. No. R-340. Seeds orange.
- 329868.** Col. No. R-341. Seeds mixed.

East of Addis Ababa, Shoa and Harrar Provinces. Local name Mashila.

- 329869.** Col. No. R-301A. Elevation 2,250 m. On the Harrar road.
